

Hear Better, Live Better

What's happening?

Natural Hearing is partnering with Rogers School District to provide free hearing screenings to all faculty and staff.

When should I do?

If you would like to be seen for a free hearing screening simply call, text, or email us. We'll get you scheduled in our clinic on a day and time that work with your schedule.

What if I need hearing aids?

AR Benefits (school insurance policy) will cover hearing aids, leaving you with just \$19.95 out of pocket. If you do not have benefits with your insurance plan we have many options to try and get you the help you need. There is no obligation to purchase anything. We will be more than happy to just answer any questions you may have.

What about the technology?

Our hearing aids are rechargeable and bluetooth compatible, allowing direct streaming of phone calls, music, and other audio. We also have many styles to choose from.
