

# EDUCATOR DISCOUNT PROGRAM

**Liv GIANT**

## Our Educator Bike Discount Program is Back!

In the midst of a worldwide bicycle shortage last year, we had to end our teacher program, as there simply weren't any bikes available. While shortages will continue this year, the program is important to us and we have gotten our suppliers on board who also want to serve those in the education field, so we will be providing deals on bikes, and other items, at a discount this year.

The bikes (and other product) you see on the site will often come and go, as it will be based on availability. If you see a bike one day you want, and it's gone the next, that means we are sold out of that bike for the next 30 - 60 days. You should expect up to a 30 - 45 day waiting time on bikes after purchasing. Sometimes it will be much less, but with supply issues, most of our customers are already having to wait 30 or more days for the bike they want. So if you want a bicycle by the time it's warm, now is the best time to order.

We will also be offering various riding and outdoor programs for school employees and students this year. We had to postpone these last year, but expect to see more on the educator page throughout the year.

As always, We can work with you in the stores to find the right bike, shoes, etc. for you or you can shop on the educator site. Bikes are available to anyone employed in the education field in NWA, as well as those in their household.

---

## PURCHASE BIKES ONLINE :

*Please allow up to a 30-45 Day wait time on bike purchases at this time.*
