School Parent & Family Engagement Plan

The Role of the Family

Build a Foundation of Success, Support, and Involvement

Strive for perfect attendance for your student. Students learn best when they are present for lessons and instruction. • Get to know your student's team of teachers. As a parent your role is vital to the team concept and success. • Utilize the school counselors. They are there to help. • Read all information on school policies and curriculum carefully. Look for this on the school website. • Review your students' school records each year. It is a parental right to know what information is in the file. • Stay informed of students' grades and test results. Ask for help if it is needed. • Request periodic meetings with the teachers if necessary. If you don't speak or understand English, ask for a translator. • Get to know other parents and form support groups to work on problems and issues of mutual interest. • Always answer emails, phone calls, and other correspondence from the school. Please let us know if you need a note written in your familiar language. • Join PTO • Attend concerts, sporting events, and other activities your child participates in • Read school newsletters, emails, and correspondence

Support Education at Home

Talk with your child about what happens at school every day. Ask often if there are messages from the school. • Spend relaxed time with your child. Do an activity you both enjoy together. • Tell them often what you like about them. • Listen to and share their worries. • Avoid scolding and arguing when your teenagers bring bad news home. Listen to their reasons and offer your help to improve the situation. It helps if your children know you believe they will be successful. • Value their education by encouraging homework and reading. Help your children choose a good time and place to do their assignments and special projects. Provide the necessary materials and give them your unconditional support. • Manage and monitor their cell phone and digital use. • Make sure your child gets enough sleep every night.

The Role of the Student

Follow the Cougar Core

1. Choose Kind • 2. Do work you can be proud of • 3. Keep Kirksey safe • 4. Be positive and have a good attitude • 5. Embrace Challenges, persevere, and don't quit • 6. School Parent & Family Engagement Plan

Jointly Developed

The parent and family engagement committee will convene a minimum of twice yearly to develop and review the parent and family engagement plan. The committee will review the existing plan, make recommendations for improvement, and initiate additional changes or alterations based on feedback.

Prior to this meeting the engagement plan will be discussed with the Parent Teacher Organization (PTO). Parent communication through the PTO will be utilized to issue invitations for participation in the parent and family engagement committee. We will ensure adequate representation of parents in the process, and parent concerns and requests for additional meetings will be addressed by the parent facilitator.

Communications

The parent and family engagement plan, along with the contact information for our parent facilitator, will be published on the Kirksey Middle School's website in English and Spanish. Additionally, a link to the parent and family engagement plan and a summary of the plan will be provided through school social media formats.

A parent information packet will be provided to families to encourage communication. Kirksey Middle School's Family Information Packet includes the following:

- A description of Kirksey Middle School's parental involvement plan
- Opportunities for families to be involved at the school and their child's education
- Information about activities provided throughout the school year
- Information about the multiple avenues and systems used to ensure families and the school communicate in a regular, two-way, meaningful manner. Systems and avenues include grade-level newsletters, Home Access Center (HAC), PBIS Rewards, social media posts, and Parent/Teacher Conferences.
- Information from the PTO that includes events, volunteer opportunities, and an application for membership
- Survey regarding volunteer interests
- School webpage, RPS app, Facebook, Twitter, Instagram access.

Various meetings are offered to involve parents and families in the child's education in person, via phone conference, and digitally. Home visits are conducted as needed.

Coordination of Services

Kirksey Middle School will work to engage organizations within the community to strengthen school programs, family practices, and student learning in order to maximize the partnership between the school and the community. The parent facilitator and administration will support staff members in the development of productive relationships with community resources in order to enhance curriculum and instruction. These

include ongoing partnerships with Walmart, Rogers Police Department, School Social Workers, Samaritan House and others.

Community partners are invited to participate in the school-wide Courageous Cougar competition. Business and community partners engage with students and help them learn communication, social, and soft skills that will ultimately promote success in students' lives.

Parents are invited to participate in developing Student Success Plans (SSPs). The SSP is designed to help students be successful in high school and with post secondary education.

Counselors and Social workers will provide information, resources, and referrals to community resources as needed. Additionally, a parent resource center is available for parents and students in the Kirksey Middle School office to encourage responsible parenting. Our established PTO will also serve as a liaison for matching community services with needs based on input from counselors and administrators.

Building Capacity of Parents

Kirksey Middle School will work diligently to involve parents in the events and meetings held at the school. Regular PTO meetings are scheduled monthly during the school year. These dates are communicated in advance over a variety of communication mediums. Family and parent involvement meetings will be held at least twice yearly with open invitations to all stakeholders. Further meetings will be planned based on demand and need.

We will share programs and curriculum in use and describe/discuss the types of assessments that students participate in during PTO and family and parent involvement meetings. Additionally, we will help parents understand varying forms of data available to them while also communicating supports for student achievement.

Our Parent and Family Engagement Plan is comprehensive in nature and includes the following events to encourage communication with the parents:

- Orientation sessions for new students
- Open House is planned each year so that parents can meet their child's teachers, counselors and administrators
- ESL parent meeting
- REACH (gifted and talented) parent involvement activities
- Counselor/Administration/Teacher contact
- PTO
- Work in conjunction with the elementary and high schools to provide a parent/student transition meeting for 5th and 8th graders
- Individual Educational Program, Health Care Plans and 504 meetings
- Orchestra, Band, and Choir evening programs
- Awards assemblies
- RPS app, Twitter, Facebook and Instagram
- Weekly newsletters specific to grade level
- PTO monthly newsletter
- Links to resources provided by counselor included in social media and newsletter formats

Building Capacity of of School Staff

All Kirksey Middle School staff complete professional development and training on parent engagement and involvement. This training involves all staff levels and advocates for family involvement being a vital aspect of student learning. Plans are put into place to include parents and their contributions to maximize instructional impacts for students.

Staff expectations for parent contact are shared . These include the expectation of outreach occurring regularly for both positive interactions and reinforcements as needed. The partnership between school personnel and families is encouraged through ongoing training to encourage positive interaction. Additionally, a protocol is in place for handling parent concerns which includes a pyramid of supports and escalation. The procedures are published in the student handbook. The handbook is available in both English and Spanish formats to make information more readily accessible.

Dr. Jeff Perry, Superintendent

Dear Parent:

In December 2015, former President Barack Obama signed the Every Student Succeeds Act into law. Parents continue to have the same rights as they did under "No Child Left Behind".

Under ESSA, parents have a right to know the professional qualifications of their children's teachers(s). This letter is to inform you of your right to ask for the following information about each of your child's classroom teachers:

- Whether the state of Arkansas has licensed or qualified the teacher for the grades and subjects he or she teaches (Note: We are also required to send a notice to parents affected if the teacher is not fully licensed, so if you haven't received such notice, your child's teacher(s) is/are fully licensed.)
- Whether the teacher is teaching under an emergency permit or other provisional status through which state licensing criteria have been waived.
- The teacher's college major, whether the teacher has any advanced degrees, and, if so, the subject of the degrees.
- If any time your student has been taught for four (4) or more consecutive weeks by a teacher(s) that is not highly qualified, then you will be notified by the school.

You also have the right to request information regarding the qualifications of the paraprofessional(s) assisting your child's teacher(s). If your child is receiving Title I, Part A services from a paraprofessional, then our district or school is able to provide you with the following information:

- Whether the paraprofessional has completed at least two years of study at an institution of higher education.
- Whether the paraprofessional has completed an associate's degree (or higher).
- Whether the paraprofessional has met a rigorous standard of quality through our state's certification procedure for determining the quality of paraprofessional staff.
- Whether the paraprofessional has: (a) the knowledge of and ability to assist in instructing reading, writing, and mathematics or (b) the knowledge of and the ability to assist in learning activities, such as homework, reading readiness, writing, mathematics, and other support as appropriate.

If you would like to receive specific information about your child's teacher or paraprofessional, please visit our office at 500 West Walnut Street to fill out a Parent Request Form. A response will be mailed to you within ten working days from the date of the request. Our office is open from 7:30 a.m. to 4:30 p.m. Monday through Friday.

Our district is fully committed to the success of your child. We appreciate your partnership in our efforts.

Sincerely,
Dr. Roger Hill
Assistant Superintendent for Human Resources
