

This project based learning opportunity offers many CCSS and TESS connections. Available to all 4th-12th grade students in our state, student teams work cooperatively to build an investment portfolio of stocks, bonds and mutual funds. The skills demonstrated reach the top of Bloom's Taxonomy! There is a \$15 fee for each team participating. There are so many wonderful, real world connection opportunities! To find out more or schedule a webinar, contact Marsha at marsha@economicsarkansas.org .

FUNDING SOURCES:

Donna K. Wright Scholarship:

This scholarship will help support team fees. There is a fall and spring deadline.
